Subject: UPDATE - Road Closure - Turtle Creek Bridge Replacement on Davidson FSR

To Whom it May Concern:

As a follow-up to the notifications issued on July 9th and July 22nd, 2026, regarding the Davidson Forest Service Road (FSR) closure at the Turtle Creek bridge, please be advised that a temporary road closure of approximately 5–7 days has been delayed and is now anticipated to be from August 23 to August 28, 2026. While every effort will be made to adhere to this schedule, the timing of the closure remains subject to change based on construction requirements and field conditions. The bridge location is identified in Figure 1 below.

This bridge replacement is a component of the construction of the Mine Access Road, which will connect the Blackwater Mine to the Kluskus FSR at the 124.5 km mark. Notification of this project was previously provided on March 3, 2026. The Mine Access Road alignment is shown in Figure 2 below.

All required permits are in place, and a qualified engineer has been retained to oversee safety and quality control throughout the project.

If you have questions or concerns related to these or any other activities, please contact the undersigned, call the community office at 250-567-3276, or utilize the community feedback mechanism at [artemisgoldinc.com/communityfeedback](https://www.artemisgoldinc.com/communityfeedback).
